Google AdSense

Our website uses Google AdSense. The provider is Google Inc., 1600 Amphitheater Parkway, Mountain View, CA 94043, USA.

Google AdSense is used to integrate advertisements and uses cookies. Cookies are small text files that your web browser saves on your device in order to analyze the use of the website. Google AdSense also uses web beacons. Web beacons are invisible graphics that allow an analysis of visitor traffic on our website.

Information generated by cookies and web beacons is transmitted to Google servers and stored there. The server is located in the USA. Google can pass this information on to contractual partners. However, Google will not merge your IP address with other data stored about you.

The storage of AdSense cookies is based on Art. 6 Para. 1 lit. f GDPR. As a website operator, we have a legitimate interest in analyzing user behavior in order to optimize our website and our advertising.

Google AdWords and Google Conversion Tracking

Our website uses Google AdWords. The provider is Google Inc., 1600 Amphitheater Parkway, Mountain View, CA 94043, United States.

AdWords is an online advertising program. We work with conversion tracking as part of the online advertising program. After clicking on an ad placed by Google, a conversion tracking cookie is set. Cookies are small text files that your web browser stores on your device. Google AdWords cookies lose their validity after 30 days and are not used to personally identify users. Google and we can tell from the cookie that you clicked on an ad and were redirected to our website.

Every Google AdWords customer receives a different cookie. The cookies cannot be tracked via the websites of AdWords customers. Conversion cookies are used to create conversion statistics for AdWords customers who use conversion tracking. Adwords customers find out how many users clicked on their ad and were redirected to pages with a conversion tracking tag. However, AdWords customers do not receive any information

that enables users to be personally identified. If you do not want to participate in tracking, you can object to its use. Here, the conversion cookie must be deactivated in the user settings of the browser. This means that there is no inclusion in the conversion tracking statistics.

The storage of “conversion cookies” takes place on the basis of Art. 6 Para. 1 lit. f GDPR. As a website operator, we have a legitimate interest in analyzing user behavior in order to optimize our website and our advertising.

You can find details on Google AdWords and Google Conversion Tracking in Google's data protection provisions: <https://www.google.de/policies/privacy/>.

With a modern web browser you can monitor, restrict or prevent the setting of cookies. Deactivating cookies can limit the functionality of our website.
